The Directors (the “Board”) of Tyranna Resources Limited (“Tyranna” or “the Company”) are committed to the implementation of the highest standards of corporate guidance. In determining what these standards should be, the Board references guidance and supports, where appropriate the Corporate Governance Principles and Recommendations (4th Edition Recommendations or ASX Recommendations”) established by the ASX Corporate Governance Council (the “Council”).

- 2.1. supervising the Company's framework of control and accountability systems to enable risk to be assessed and managed, including addressing the matters enumerated in paragraph 2.2 following;
- 2.2. ensuring the Company is properly managed, for example by:
 - 2.2.1. appointing and, where appropriate, removing the managing director, chair, CEO and other senior executives of the Company and the Company Secretary;

BOARD CHARTER

any vacancy arises, provided that any appointment made by the Board must be ratified by shareholders at the next annual general meeting of the Company;

- 2.8. liaising with the Company's external auditors and Audit Committee (where there is a separate Audit Committee); and
- 2.9. monitoring and ensuring compliance with all of the Company's legal obligations, in particular those obligations relating to the environment, social responsibility, cultural heritage and occupational health and safety.

The Board may not delegate its overall responsibility for the matters listed above however, it may delegate related day-to-day activities provided those matters do not exceed the Materiality Threshold as defined herein.

3. COMPOSITION OF THE BOARD

Independent Directors

- 3.1. The Board considers that a director is independent if that director is not involved in the day to day management of the Company and has no relationship that could compromise or materially affect that director's independent judgment. All the circumstances must be considered to assess whether the director can reasonably be considered to be free of any relationship that could materially interfere with his independent exercise of judgement and ability to act in an entirely disinterested manner in all things.
- 3.2. The following questions need to be addressed when assessing a director's independence, namely:
 - 3.2.1. does the director have or propose to have any business dealings with the Company;
 - 3.2.2. has the director been in an executive capacity in the Company in the last 3 years;
 - 3.2.3. has the director been involved with the company in an advisory capacity within the last 3 years;
 - 3.2.4. has the director been a significant customer or supplier for the Company;
 - 3.2.5. has the director been appointed through a special relationship with a Board member, ie. having a close family tie with another person who would not be considered independent;
 - 3.2.6. does the director owe allegiance to a particular group of shareholders which gives rise to a potential conflict of interest;
 - 3.2.7. does the director hold conflicting cross directorships; and

BOARD CHARTER

- 3.2.8. does the director have a substantial shareholding or is he a nominee of a substantial shareholder (as defined under section 9 of the Corporations Act); and
- 3.2.9. has the person been a director of the entity for such a period that his or her independence may have been compromised.

It is a priority of the Board to achieve an appropriate balance between independent and non-independent representation on the Board. In making this determination, the Board takes into account the required skills and experience required, in the context of the Company's operations and activities from time to time. In determining whether or not the directors are independent, the Board applies the criteria as set out in the ASX's Recommendations.

Where the chair is not an independent director, the Company will appoint a lead independent director if it is practicable to do so. The lead independent director will take over the role of the chair when the chair is unable to act in that capacity as a result of his or her lack of independence.

The independent directors, along with all directors, are responsible for reviewing and challenging executive performance. They are also responsible for contributing to the development of strategy.

- 3.1. if that director, officer or employee possesses information that a reasonable person would expect to have a material effect on the price or value of the securities if the information was generally available;
- 3.2. if the director, officer or employee knows or ought reasonably to know, that:
 - 3.2.1. the information is not generally available; and

Any share transaction undertaken by Directors must be notified to the Company Secretary within 3 days of such transaction, for release to the ASX.

Further, directors, officers, employees and contractors must not either directly or indirectly pass on this kind of information to another person if they know, or ought reasonably to know, that this other person is likely to deal in the securities of the Company or procure another person to do so.

¹ In this policy, references to "directors, officers and employees" extends to a reference to their respective parents, children, spouses (including de facto) and entities that are controlled by any of them.

SHARE TRADING POLICY

Purpose

This share trading policy sets out the Company's policy regarding the trading in Company securities, which includes shares, options, warrants, debentures and any other security on issue from time to time. This policy is separate from and additional to the legal constraints imposed by the common law, the Corporations Act and ASX Listing Rules.

This policy applies to all Directors and employees of the Company and their associates (including spouses, children, family trusts and family companies) as well as contractors, consultants, advisers and auditors of the Company ("designated officers").

Requirements

It is illegal to trade in the Company's securities while in possession of unpublished price sensitive information concerning the Company. Under the Corporations Act a person with inside information must not, and must not procure another person, to deal in the securities of a body corporate or enter into an agreement to deal in the securities of a body corporate. Inside information is defined in the Corporations Act as information that:

- is not generally available; and
- if generally available, a reasonable person would expect it to have a material effect on the price or value of the securities of the body corporate.

General Prohibition on Insider Trading

All designated officers are prohibited from trading in the Company's securities while in the possession of unpublished price sensitive information concerning the company. In addition, while in possession of unpublished price sensitive information designated officers must not advise others to trade in the Company's securities or communicate the information to another person knowing that the person may use the information to trade in, or procure someone else to trade in, the Company's securities.

Unpublished price sensitive information is information regarding the Company, of which the market is not aware and that a reasonable person would expect to have a material effect on the price or value of the Company's securities, and includes:

- a proposed major acquisition or disposition;
- drill or exploration results;
- a significant business development or a proposed change in the nature of the Company's business;
- details of material contracts that are being negotiated by the Company;
- potential litigation that would have a substantial effect on the Company;
- a proposed change in the share capital structure of the Company;
- a proposed change in the Company's dividend policy; and
- a major change to the Board or senior management.

Restrictions on Short-Term Trading

The Company encourages Directors and employees to adopt a long-term attitude to their investment in the Company's securities. Consequently, Directors and employees may not engage in short-term or speculative trading of the Company's securities.

Permission to Trade

Directors, members of senior management and employees may trade in the Company's securities at other times so long as they are not in possession of any unpublished price sensitive information.

Exceptions

A person may trade in the Company's securities in the following circumstances:

- the Chairman approves the trade by a Director upon the director or Company Secretary satisfying the Chairman that they do not possess unpublished price sensitive information about the company and a failure to trade in the company's securities would result in exceptional circumstances such as financial hardship;
- the Chairman approves the trade by an employee upon the employee satisfying the Chairman that they do not possess unpublished price sensitive information about the company and a failure to trade in the Company's securities would result in exceptional circumstances such as financial hardship;
- trade in a managed securities portfolio where the person is not in a position to influence choices in the portfolio; and
- where the trade results from a dividend reinvestment plan where the person has given ongoing instructions to reinvest dividends.

Notification of Proposed Trade in Company Securities

Chairman

Prior to trading in (either buying or selling) the Company's securities, the Chairman must notify the Managing Director of his/her intention to trade and confirm that he/she is not in possession of any unpublished price sensitive information.

Directors

Prior to trading in (either buying or selling) the Company's securities, Directors must notify the Chairman of their intention to trade and confirm that they are not in possession of any unpublished price sensitive information.

Employees

Prior to trading in (either buying or selling) the Company's securities, employees must notify the Chairman of their intention to trade and confirm that they are not in possession of any unpublished price sensitive information.

The requirement to provide notice of an intention to trade in the Company's securities does not apply to the acquisition of securities through Director, officer or employee share or option plans. However, the requirement does apply to the trading of the securities once they have been acquired.

Notification of Trade in Company Securities

Directors must also notify the Company Secretary of any trade in the Company's securities as soon as practicable, but not later than 5 business days of such trade occurring so that the Company Secretary can comply with the ASX Listing Rule 3.19A requirement to notify the ASX of any change in a notifiable interest held by a Director.

The Company Secretary will maintain a register of all trades and holdings in Company securities by Directors.

RISK MANAGEMENT POLICY

1. PREAMBLE

- 1.1. The identification and effective management of risk, including calculated risk-taking is an essential part of the Company's approach to creating long-term shareholder value.
- 1.2. The following is the Company's framework for:
 - 1.2.1. risk management; and
 - 1.2.2. internal compliance and control systems.

It covers the organisational, financial and operational aspects of the Company's affairs. Each Designated Officer is responsible for monitoring the managing director in the discharge of his responsibility to ensure the maintenance of, and compliance with, appropriate systems and raising any concerns in that regard with the Chairman.

2. RISK FACTORS

A schedule of risk factors that the Board considers to be particularly relevant appears at the end, and comprises a part, of this Policy.

3. GENERAL APPROACH

All key management personnel are responsible for using a commonsense approach to foreshadowing and identifying risks and promptly alerting the Board to the same.

4. DESIGN OF RISK MANAGEMENT SYSTEMS

The Board requires management to design and implement the risk management and internal control system to manage the Company's material business risks and report to it on whether those risks are being managed effectively.

The managing director is responsible for designing, implementing and reporting on the adequacy of the company's risk management and internal control system. Management reports to the Audit and Risk Committee on the Company's key risks and the extent to which he believes these risks are being managed. This is to be performed on a six monthly basis or more frequently as required by the Board or any relevant committee.

5. ASSURANCE

- 5.1. The Board will disclose that it has received assurance from the chief executive officer (or equivalent) and/or the chief financial officer (or equivalent) that the declaration provided in accordance with section 295A of the Corporations Act is founded on a sound system of risk management and internal control and that the system is operating effectively in all material respects in relation to financial reporting risks.
- 5.2. The managing director is responsible for ensuring that the Board is satisfied (at least annually) that:

RISK MANAGEMENT POLICY

- 5.2.1. management has developed and implemented a sound system of risk management and internal control. Detailed work on this task is delegated and the managing director shall seek approval as to the identity of the delegates;
- 5.2.2. strategic and operational risks have been reviewed in all operational spheres as part of the annual strategic planning, business planning, forecasting and budgeting process.
- 5.3. Detailed internal control questionnaires are to be completed by the managing director in relation to financial and other reporting on a six monthly basis and provided to the Board to achieve compliance with section 295A of the Corporations Act. Due to its nature, an internal control assurance given for the purpose of section 295A can only be reasonable rather than absolute. This is due to such factors as the need for judgement, the use of testing on a sample basis, the inherent limitations in internal control and because much of the evidence available is persuasive rather than conclusive and therefore is not and cannot be designed to detect all weaknesses in control procedures.

6. FINANCIAL

The Company's financial situation is not complex. It relies on equity funds for exploration and administration purposes.

Quarterly cash flow reports and management accounts will be prepared and circulated to the Directors for review and consideration.

The Board must approve all material project expenditure.

The Company must maintain appropriate insurance cover. This includes cover in respect of workers' compensation, public liability, motor vehicles and property insurance. The Company may maintain travel insurance for the benefit of the traveller/traveller's next of kin.

The Company may obtain cover for Directors' and officers' liability, to the extent permitted by the Corporations Act.

The managing director must ensure that the Company implements appropriate procedures to back-up its financial and other electronic data and that the Company's physical records are held adequately safeguarded.

INVESTMENT RISKS

1. PREAMBLE

This is the schedule of risk factors referred to in the Risk Management Policy.

It is divided into two sections: specific risks and general risks. Together they outline the principal risks involved in investing in the Company but they are not, by any means, exhaustive.

2. SPECIFIC RISKS

2.1. Reliance on Key Personnel

The Company's success could be influenced by the core competencies of its directors and management, their familiarisation with, and ability to operate in, the metals and mining industry and the Company's projects. The Company relies heavily upon the services of its Managing Director.

The loss (or restricted access to availability) of the Company's Managing Director, or other key persons or consultants, could have a materially adverse affect on the Company.

2.2. Conflicts

Where companies have common boards of directors (or even some directors in common) conflicts of interest can easily arise between such companies. This is especially important where the Company is in joint venture (or other contractual relationship) with such other companies. Reference should be made to the Company's most recent Annual Report together with subsequent dated ASX disclosure for details of such contracts.

2.3. Expenditure Commitments

Reference should be made to the Company's most recent Annual Report together with subsequent dated ASX disclosure for details of expenditure commitments (both statutory and contractual). Such commitments may not be met for many reasons (including: results not justifying the same within the relevant time constraint (or at all); and the prevailing market conditions) with the consequence that the Company's assets may be jeopardised.

2.4. Tenement Interests & Access

Where the Company's interest in tenements is contractual only (eg a joint venture), there is a risk that one or more of the Company's co joint venturers may be unwilling or unable to comply with the terms of a joint venture agreement. If this occurs, the Company may not be able to recover adequate damages or other amounts, which may have a material effect on the value of the Company and its shares.

The transfer of an interest in some tenements to the Company will often require consent under relevant legislation and there can be no guarantee that the necessary consent will be forthcoming.

INVESTMENT RISKS

Tenement holdings are continually evaluated (especially) following receipt of exploration results. It is to be expected that the Company will cease to maintain an interest in some or all of tenements in whole or in part from time to time.

2.5. Valuation of tenements & shares

The Company's policy regarding the value at which it reflects its tenement holdings in its balance sheet does not rely on an independent valuation of the same and it is not the practice of the Company to commission a valuation of any tenement in which it has or is earning an interest and no representation is made in that regard.

The Company does not provide a valuation of its shares (or other securities) and no representation is made in that regard.

Investors and their advisers should invest only on the basis that tenements have an unknown value and must make their own assessment as to the value of shares in the Company.

2.6. Exemption Applications

As part of normal operational practice, a number of applications for exemption from compliance with the minimum expenditure conditions prescribed by law in respect of some of tenements may be made from time to time. No assurance is given that any or all of these applications will be granted or, failing such grant, that tenements will not be forfeited for want of compliance with such expenditure conditions or, alternatively, that the holder will not be fined in lieu.

2.7. Exploration

Exploration, by its very nature, is an inherently risky business. This is especially so of grass root exploration tenements which have had little or no on-ground prospecting or exploration activity undertaken on them. They are generally acquired on the basis of a hypothesis involving conceptual interpretation, often of remote sensing geophysical data or first pass geochemical surveys. The probability of a significant discovery being made is statistically low. Even where mineralisation has been identified, the probability of demonstrating an economic deposit is statistically remote. The potential rewards reflect these very high risks.

Ultimate success potentially depends on many factors including the establishment of an efficient exploratory operation, obtaining necessary access agreements, government, statutory and other approvals and discovery and delineation of economically recoverable mineral resources. The exploration activities of the Company may be affected by a number of factors including, but not limited to, obstruction to ground access, objections to the grant of tenements, geological conditions, seasonal weather patterns, technical difficulties and failures, availability of the necessary technical equipment and appropriately skilled and experienced technicians, adverse changes in government policy or legislation and access to the required level of funding.

INVESTMENT RISKS

There can be no assurances that the Company's current or future exploration activities will result in the discovery of mineral resources. Even if a mineral resource is identified, there can be no guarantee that it can be exploited.

On-ground access to tenements frequently requires agreement with Aboriginals and freehold landowners. There can be no guarantee that agreements will be obtained.

3. GENERAL RISKS

3.1. Introduction

This section expands upon the above risks. Nevertheless, these two sections do not exhaustively list the risks that may have a material effect on the financial position and performance of the Company and the value of its securities, the Company's exploration, (and any future) development and mining activities, or ability to fund those activities.

An investment in the Company is speculative due to the nature of the Company's business. The Board recommends that potential shareholders consider the risks described below and information contained elsewhere in this manual, as well as consult with their professional advisors, before deciding whether or not to invest in the Company.

The value of any investment can go down as well as up and shareholders may lose their entire investment in the Company.

No representation is or can be made as to the future performance of the Company and there is no assurance that the Company will realise its aims.

3.2. General, Economic and Political Conditions

The value of the Company's securities is likely to fluctuate depending on various factors including, but not limited to: (a) inflation, (b) interest rates, (c) domestic and international economic growth, (d) changes to taxation legislation, interpretation and policies, (e) legislative change, (f) political stability, (g) disasters, (h) industrial disputes, (i) social unrest, (j) war on a local or global scale, (k) mining industry conditions, (l) stock market conditions in Australia and elsewhere, (m) changes in investor sentiment towards particular market sectors, (n) acts of God, and (o) acts of terrorism.

3.3. Cultural Heritage

The Company intends to be active in a number of jurisdictions throughout the world and is sensitive to the impact of the Company's activities on cultural heritage as well as the need to be aware of the legislative regime in each jurisdiction dealing specifically with the rights of indigenous peoples, cultural heritage and indigenous land rights.

3.4. Tenements and Government Imposts

INVESTMENT RISKS

Tenements are subject to legislative and regulatory requirements with respect to the processes for application, grant, conversion and renewal. Tenements are also subject to the payment of annual rent and the meeting of minimum annual expenditure or work commitments. There is no guarantee that any applications, conversions or renewals will be granted. Any inability of the Company to meet rent and expenditure requirements may adversely affect the standing of its tenements.

3.5. Commodity and Currency Price Volatility

Commodity prices inherently fluctuate and are affected by numerous factors beyond the control of the Company, including global and regional demand for, and supply of, a particular commodity, forward selling by producers and the level of production costs in major commodity-producing regions. Commodity prices are also affected by macroeconomic factors such as expectations regarding inflation and interest rates. Commodities are principally sold throughout the world in US dollars.

As a result, any significant and/or sustained fluctuations in the exchange rate between the Australian and US dollars, and/or adverse movements in commodity prices could have a materially adverse affect on the Company's financial position and performance. The Company may undertake measures deemed necessary by the Board to mitigate such risks.

3.6. Development and Mining

Possible future development of a mining operation at any of the Company's projects is dependent on a number of factors including, but not limited to, the acquisition and/or delineation of economically recoverable mineral resources, favourable geological conditions, receiving the necessary approvals from all relevant authorities and parties, seasonal weather patterns, unanticipated technical and operational difficulties encountered in extraction and production activities, mechanical failure of operating plant and equipment, unexpected shortages or increases in the price of consumables, spare parts and plant and equipment, cost overruns, access to the required level of funding and contracting risk from third parties providing essential services.

In the event that the Company commences production:

- its operations may be disrupted by a variety of risks and hazards which are beyond its control, including environmental hazards, industrial accidents, technical failures, labour disputes, unusual or unexpected rock formations, flooding and extended interruptions due to inclement or hazardous weather conditions and fires, explosions and other accidents;
- assumptions in the mining models may prove to be wrong including because of changes in economic circumstances or fluctuations in the unitary parameters referred to above;

INVESTMENT RISKS

- accordingly, for these and other reasons, no assurances can be given that the Company will achieve commercial viability through the development and/or mining of its projects.

3.7. Environment

The Company's projects are subject to the laws and regulations regarding environmental matters and the discharge of hazardous wastes and materials. As with all exploration and mining projects, the Company's projects are expected to have a variety of environmental impacts. The Company intends to conduct its activities in an environmentally responsible manner and in accordance with all applicable laws and regulations.

3.8. Shortage of Capital

The Company will require capital to fund its activities including potentially exploration, the undertaking of feasibility studies, developing mining operations, meeting its future obligations and/or acquiring new projects. The Company's ability to raise further capital, either equity or debt, within an acceptable time, of sufficient quantum and on terms acceptable to the Company will vary according to a number of factors, including:

- (a) prospectivity of projects (existing and/or future);
- (b) the results of exploration, subsequent feasibility studies, development and mining;
- (c) stock market and industry conditions; and
- (d) the price of relevant commodities and exchange rates.

No assurance can be given that future funding will be available to the Company on favourable terms, or at all. If adequate funds are not available on acceptable terms the Company may not be able to further develop its projects or assume further obligations in the future.

3.9. Liquidity and Realisation Risks

There can be no guarantee that an active market in the Company's shares will develop or that the price of shares will increase. Moreover, there may be relatively few buyers or a relatively high number of sellers of the shares on the ASX at any given time, which may increase not only the volatility of the market price of the shares but also depress the prevailing market price at which shareholders can sell their shares. This may result in shareholders receiving a market price for their shares that is less than the price paid for their shares.

SHAREHOLDER COMMUNICATION POLICY

The Board is to ensure that the shareholders are informed of all major developments affecting the Company. For so long as the law requires, shareholders will be entitled to elect to receive the Company's annual report by email or post, and may also request copies of the Company's half-yearly and quarterly reports.

It is the Company's desire that shareholders receive communications electronically in the interests of the environment and constraining costs. In an endeavour to drive this objective the Company has a policy of providing hard materials at least cost (which will generally involve a black & white presentation even where the electronic version is full colour).

The Company encourages shareholders to attend all general meetings of the Company.

The Company must maintain a website on which the following information is to be available on a regular and up to date basis:

1. Company announcements (for last three years);
2. information briefings to media & analysts (for last three years);
3. notices of meetings and explanatory materials;
4. financial information (for last three years);
5. annual reports (for last three years);
6. its Constitution; and
7. its board charter, nominations committee charter, remuneration committee charter and audit committee charter and corporate governance policies.

CONTINUOUS DISCLOSURE POLICY

The Company's Board is to ensure that the market is properly informed of all information that must be disclosed under the ASX Listing Rules and the Corporations Act.

Every person who is at risk of being involved in the Company contravening its continuous disclosure obligation arising in respect of particular information must ultimately take responsibility for ensuring compliance.

There must at all times be a system in place to collect and process information (**Material Information**) that could conceivably enliven the continuous disclosure obligation. In doubtful cases disclosure should be made immediately.

Where it is determined that information should be conveyed to the ASX it will be the **Disclosure Officer** who will be the point of contact with the ASX. Except in extraordinary circumstances the Company Secretary will be the Disclosure Officer.

The obligation to keep the Disclosure Officer fully informed of any significant internal issue relating to or affecting the Company is central to the training and development of all the Company employees and contractors and consultants.

Every person shall be accountable for ensuring that:

1. all staff reporting them do, as soon as reasonably practicable, report any 'material' event or development within their area of responsibility to their manager and to one or more of the Chair and/or Company Secretary;
2. each department or work area within his or her division or area of responsibility carries out, or is involved in, a review to discuss and agree upon the types of events or developments that are most likely to be 'material' and potentially required to be disclosed, and
3. he or she reports immediately any event or development that he or she believes may potentially be the subject of the continuous disclosure obligation.

An employee of or contractor to the Company must not discuss material information outside the Company unless he/she is required to do so in the discharge of his/her duties.

The Company is to place all relevant announcements and other information, including analysts' briefings, on its website once the information has been given to ASX and the usual acknowledgment has been received that the announcement has been released.

The Company's directors, employees, contractors and consultants are also required to ensure that all Material Information is not released to some shareholders or analysts but not to others.

As a listed company, the Company must not release information that is for release to the market to any person until it has given that information to the ASX and received an acknowledgment from the ASX that it has released the information to the market (Listing rule 15.7).

OH&S POLICY

The health and safety of all personnel operating on the Company's sites is of great importance to the Company.

For the purposes of this policy, '**employee**' includes any consultant or contractor to the Company.

No employee is expected to carry out activities that he or she reasonably considers to be unsafe.

Each employee has a responsibility to work safely and address health and safety concerns as soon as they arise.

The Company's objective is to conduct operations in an efficient way while providing:

1. a safe and healthy workplace;
2. information on the hazards of the workplace and training in how to work safely, and
3. consultation at all staff levels on health and safety matters.

The responsibility for health and safety performance, including training for each employee, rests with the Company's Board and management. The identification of potential health and safety risks will require ongoing review by employees, management and the Board.

CORPORATE ENVIRONMENTAL AND SOCIAL RESPONSIBILITY POLICY

The Company seeks to engage in conscientious activity giving full consideration to the social significance of the Company's presence in the community. The Company seeks to maintain environmentally sound and efficient management practices for its operating, exploration and mining activities. The Company considers corporate environmental and social responsibility a means of contributing to society and the environment through our business.

The Company's objectives are to:

1. comply with the applicable environmental laws, regulations, tenement and permit conditions as a minimum standard for its environmental practices and management procedures;
2. integrate environmental and rehabilitation processes into its exploration, mine planning, mining and metallurgical activities;
3. communicate meaningfully with government bodies, statutory authorities, local communities and environmental management groups to maintain a proactive stance on environmental and community issues;
4. address the concerns of not only economic stakeholders but also social, environmental and other stakeholders;
5. listen to the community, identify social impacts and work with the community to minimize those impacts;
6. facilitate education of employees and contractors in relation to their roles and responsibilities in environmental management with respect to the Company's activities;
7. contribute to the building of thriving communities and respect the culture of our host countries and communities;
8. welcome community participation in our business through employment and consideration of commercially sound business opportunities;
9. undertake planning for the day that the Company leaves the community with a view to ensuring that the transition is positive; and
10. undertake regular monitoring, audit and review of procedures or practices, as appropriate, to reflect the Company's corporate responsibility in environmental and social matters; and
11. provide sufficient resources to achieve the levels of environmental management protection and community building required, including capacity for continuous improvement.

The Board is accountable for ensuring this policy is effectively implemented. Each employee has a responsibility to ensure that these objectives are achieved. For the purposes of this policy, '**employee**' includes any consultant or contractor to the Company.

WHISTLEBLOWER POLICY

1. PREAMBLE

This policy establishes a process through which employees and others, either directly or anonymously, can notify the company secretary or the chairman of concerns pertaining to the Company's compliance with acceptable standards of conduct, absence of honesty or integrity.

Every employee has the responsibility to notify concerns re violations of acceptable standards of conduct, honesty or integrity.

Even the best systems of control and procedures, however, cannot provide absolute safeguards against such violations.

2. REPORTING ALLEGED VIOLATIONS OR CONCERNS

If an employee reasonably believes that any employee of the Company or other person acting on behalf of the Company has violated any legal or regulatory requirements or internal policy relating to accounting standards and disclosures, internal accounting controls, or matters related to the internal or external audit of the Company's financial statements, the employee should immediately report his or her concern to the company secretary or the chairman.

If an employee is not comfortable reporting a concern to either the company secretary or the chairman, he or she should report the concern to any supervisor or member of management whom he or she is comfortable approaching. Any manager or other supervisory employee who receives a report of an alleged violation must immediately forward the report to the company secretary or the chairman. The company secretary or the chairman will communicate all reports of alleged violations to the Board.

Reports of alleged violations may be submitted anonymously. All reports of alleged violations, whether or not they were submitted anonymously, will be kept in strict confidence to the extent possible, consistent with the Company's need to conduct an adequate investigation.

Reports of alleged violations should be candid, factual (rather than speculative) and should contain as much specific detail as possible to allow for proper assessment. The Company may, in its reasonable discretion, determine not to commence an investigation if a complaint contains only unspecified or broad allegations of wrongdoing without appropriate factual support.

3. INVESTIGATION OF COMPLAINTS

Upon receipt of a complaint alleging a violation, the Board, or a designated member of the Board, will make a determination as to whether a reasonable basis exists for commencing an investigation into the conduct alleged in the complaint. If the Board or its designated member concludes that an investigation is warranted, it shall take appropriate measures to implement a thorough investigation of the allegations.

At each meeting of the Board of Directors, the Board will discuss the status of any ongoing investigation and review the resolution of each complaint

WHISTLEBLOWER POLICY

submitted, whether or not the complaint resulted in the commencement of a formal investigation.

4. CORRECTIVE ACTION

The Board is ultimately responsible for determining the validity of each complaint and fashioning, with the input of its advisors and the Company's management, if requested, the appropriate corrective action. The Board shall report any legal or regulatory non-compliance to the Company's management and ensure that management takes corrective action including, where appropriate, reporting any violation to relevant governmental authorities.

Any director, officer, or employee deemed to have violated any law, rule or regulation, or any internal policy regarding accounting standards and disclosures, internal accounting controls, or matters related to the internal or external audit of the Company's financial statements, may be subject to disciplinary action, up to and including termination.

5. NO RETALIATION

Employees should feel confident to report violations as described above or to assist in investigations of such alleged violations. The Company will not tolerate retaliation or discrimination of any kind by or on behalf of the Company and its employees against any employee making a good faith complaint of, or assisting in the investigation of, any violation of government laws, rules, or regulations or any of the Company's policies.

6. COMPLIANCE WITH THIS POLICY

All employees must follow the procedures outlined in this policy and cooperate with any investigation initiated pursuant to this policy. Adhering to this policy is a condition of employment. The Company must have the opportunity to investigate and remedy any alleged violating or employee concerns, and each employee must, to the extent he or she has the capacity to assist, ensure that the Company has an opportunity to undertake such an investigation.

This policy does not constitute a contractual commitment of the Company. This policy should not be construed as preventing, limiting, or delaying the Company from taking disciplinary action against any individual, up to and including termination, in circumstances (such as, but not limited to, those involving problems of performance, conduct, attitude, or demeanour) where the Company deems disciplinary action appropriate.

This policy in no way alters an employee's at-will employment status with the Company. Either the Company or an employee can terminate the employment relationship at the Company at any time, subject to that employee's employment contract and applicable legislation and regulation.

DIVERSITY POLICY

The Company recognises that a diverse and talented workforce is a competitive advantage and that the Company's success is the result of the quality and skills of our people. Our policy is to recruit and manage on the basis of qualification for the position and performance, regardless of gender, age, nationality, race, religious beliefs, cultural background, sexuality or physical ability. It is essential that the Company employs the appropriate person for each job and that each person strives for a high level of performance.

The Company's strategies are to:

1. recruit and manage on the basis of an individual's competence, qualification and performance;
2. create a culture that embraces diversity and that rewards people to act in accordance with this policy;
3. appreciate and respect the unique aspects that individual brings to the workplace;
4. foster an inclusive and supportive culture to enable people to develop to their full potential;
5. identify factors to be taken into account in the employee selection process to ensure we have the right person for the right job;
6. take action to prevent and stop discrimination, bullying and harassment;
7. recognise that employees at all levels of the Company may have domestic responsibilities and as a result, the company aims to adopt flexible working arrangements that will assist employees to meet those responsibilities; and
8. have at least one female appointed to a senior executive role, senior executives including directors, the company secretary and senior management.

The Board is accountable for ensuring this policy is effectively implemented. Each employee has a responsibility to ensure that these objectives are achieved.

ANTI-CORRUPTION AND BRIBERY POLICY

Tyranna Resources Limited (the Company) conducts business in an honest and ethical manner and takes a zero-tolerance approach to bribery and corruption.

The offering of bribes or any other improper payment or benefit to public officials is a serious criminal offence and can damage the reputation and community standing of the Company.

The Company expects its directors, senior executives, Key Management Personnel, officers and employees (Personnel), along with its distributors and representatives (including agents, consultants and contractors) (together, Business Partners) to maintain the highest standards of integrity and ethical business practice.

Many countries have laws which prohibit benefits being provided to government officials or officers with the purpose of influencing them to carry out their duties in a particular way. The Company is committed to complying with all applicable laws and standards.

Anti-bribery and corruption laws may have extra-territorial reach and many jurisdictions in which the Company operates have equivalent or similar laws, to which all Personnel and Business Partners must comply. In particular, Australian anti-bribery and corruption laws may apply to the conduct of the Company, its Personnel and Business Partners regardless of where it occurs.

This Policy outlines what constitutes a bribe and who is considered to be a public official, along with the process and legal protections that are available when reporting a breach of this Policy and the applicable laws.

Appropriate action will be taken in respect of any Personnel who breach this Policy. Breaches by Business Partners will be dealt with in accordance with the terms of their engagement or appointment.

1. DEFINITIONS

In this Policy, the following definitions apply:

- (a) **Bribe** means money or any other benefit, including but not limited to cash, travel, gifts, entertainment, secret commissions, employment and directed charitable donations which are provided in order to influence a person to improperly exercise their duty. A benefit offered to a public official which is expressly permitted by written foreign law applicable to the official will not be a Bribe.

- (b) **Public Official** includes:
 - (i) any officer or employee of a government or government owned/controlled entity;
 - (ii) a public international organisation;
 - (iii) a department or agency of a government or public international organisation
 - (iv) any person acting in an official capacity for a government or public international organisation; or
 - (v) political parties or candidates.

ANTI-CORRUPTION AND BRIBERY POLICY

- (c) **Facilitation payment** is a payment of a small amount to secure or expedite a routine governmental action to which a company is otherwise lawfully entitled. Examples of such action include, but are not limited to, obtaining permits or licences, processing governmental papers such as visas and providing mail pick up and delivery.
- (d) **Officer** includes a director, senior executive, Key Management Personnel or an employee.

2. CONDUCT

Each Personnel and Business Partner commits **not** to:

- (a) provide, offer or promise, either directly or indirectly, a Bribe to a Public Official or Officer with the intention of obtaining or retaining business or a business advantage;
- (b) provide, offer or promise, either directly or indirectly, a Bribe to any person;
- (c) permit, encourage or facilitate any other person to provide a Bribe to a Public Official or Officer;
- (d) request, receive or agree to receive a Bribe;
- (e) use false or fraudulent documents, including by establishing off-the-book accounts or falsifying accounts or transactions; or
- (f) intentionally and improperly destroy documents or financial records without the prior written consent of the Company.

Australian law permits the making of Facilitation Payments in certain circumstances. Notwithstanding this, our Personnel and Business Partners commit not to provide, offer or promise, directly or indirectly, any Facilitation Payments which amount to a Bribe.

3. GIFTS AND REIMBURSEMENT OF EXPENSES

- (a) Entertainment, corporate hospitality and gifts

The Company acknowledges that entertainment, corporate hospitality, sponsored travel or accommodation and the giving of modest gifts (together, **Gifts**) can, in appropriate circumstances, be legitimate business activities. The framework in this Policy is not intended to prohibit reasonably and proportionate Gifts. It is designed to prevent Gifts where there is an intention to influence, induce or reward improper performance, in which case the Gift will be considered a Bribe.

This Policy applies to any Gifts provided in the course of a Personnel's or Business Partner's activities, including Gifts provided or received by Personnel or as Business Partners.

Personnel and Business Partners may provide Gifts to Public Officials or Officers where:

- (i) there is no intention to influence the recipient or any other Public Official or person to improperly exercise their duty;
- (ii) the Gift complies with local laws;
- (iii) the Gift is occasional, modest and reasonable, having regard to

ANTI-CORRUPTION AND BRIBERY POLICY

- all of the surrounding circumstances, including the average income and standard of living in the recipient's place of residence;
- (iv) the Gift is not extravagant and does not create the appearance of impropriety and bribery;
 - (v) the Gift is of an appropriate type and value and is given at an appropriate time, taking into account the reason for the Gift and the status, rank or position of the intended recipient;
 - (vi) the Gift is not of an explicit or inappropriate nature and does not involve an explicit or inappropriate venue;
 - (vii) the Gift is given openly, not secretly and, if posted, sent to the recipient's company address;
 - (viii) if the Gift involves sponsored travel or accommodation:
 - (A) there is a documented commercial benefit to the Company of sponsoring the travel or accommodation (for example, travel to visit relevant operations);
 - (B) the travel or accommodation is no more than is reasonably necessary to achieve that benefit (for example, travel is limited to relevant decision makers and does not include spouses); and
 - (C) travel or accommodation payments are made by the Company directly to recognised travel providers; and
 - (ix) prior written approval is obtained from the Chief Executive Officer.

When seeking the required written approval, Personnel must provide the following information:

- (i) the name and role of the recipient;
- (ii) a description of the Gift, including dollar value;
- (iii) the name and position of the Personnel or Business Partner providing the Gift;
- (iv) the reason behind the provision of the Gift;
- (v) the date the Gift is to be provided; and
- (vi) any other information reasonably required by the Company.

The receipt or provision of any Gift (or the refusal of any Gift due to it being inappropriate) must be appropriately notified to the Company Secretary and recorded in the Company's Gifts and Hospitality Register.

(b) Political contributions

Personnel must not contribute any funds, assets or anything else belonging to the Company to any political party or organisation. This extends to the granting of contributions to any individual who holds any form of public office, except where such contributions are authorised under this Policy.

(c) Reimbursement of expenses

ANTI-CORRUPTION AND BRIBERY POLICY

Other than expenses which are occasional and of modest value, Personnel and Business Partners must not offer or promise to reimburse or pay expenses incurred by a Public Official or any other person, without the prior written approval of the Chief Executive Officer.

Reimbursement may be approved where:

- (x) there is a legitimate connection between the incurred expenses and the Company's legitimate business interests (i.e. where the expenses are reasonable travel expenses incurred as a result of a person attending the Company's premises or an event hosted by the Company);
- (xi) the reimbursement or payment does not create the appearance of impropriety or bribery; and
- (xii) the reimbursement is provided directly to the government, a government agency or organisation which the Public Official or Officer represents or the payment is made directly to the third party provider of the goods or services.

4. REPORTING BREACHES

The Board self-reports¹ any suspected breaches of this Policy or any other suspicious or corrupt interactions between Public Officials and Personnel and/or Business Partners, such as any express or implied requests for Bribes from Public Officials or other persons, to the Australian Federal Police in order to:

- (b) proactively identify and address wrongdoing within the Company;
- (c) comply with the directors' obligations and duties to act in the best interests of the Company;
- (d) minimise reputational damage; and
- (e) be a good "corporate citizen".

Any internal reporting of a breach or other suspicious or corrupt interactions will be dealt with in accordance with the Company's Whistleblower Policy.

In accordance with the Whistleblower Policy, an Eligible Whistleblower (as defined in the Company's Whistleblower Policy) reporting the breach or inappropriate conduct will be protected from any victimisation or harassment, discrimination, demotion, dismissal or current or future bias as a result of making a report.

In making a report of a breach of this Policy or other inappropriate conduct, an Eligible Whistleblower may choose to remain anonymous or request that their name be kept confidential.
